Education

The Ohio State University

Bachelor of Science in Computer Science and Engineering
Dean's List, Autumn 2025

Columbus, OH

Expected May 2028

Kent State University

Computer Science coursework; GPA: 3.98

Kent, OH

Aug. 2024 – Jul. 2025

Experience

Full-Stack Engineering Intern

Currents Systems Inc. (DBA Visor)

2025 – Present

Columbus, OH / Remote

- Built interactive data visualizations, including a filterable scatter plot for large vehicle datasets.
- Developed and maintained full-stack features in a production application while working directly with the CTO.
- Used approved AI tools to generate and process vehicle images while following company data and IP policies.

Contract Web Developer

Vacova

2025 – Present

Remote

- Implemented production features, fixed bugs, and maintained existing software across client projects.
- Integrated code changes and delivered clear documentation and technical support for each handoff.

Freelance Creative Developer

Self-employed

2023 – Present

Remote

- Designed and launched 3+ responsive websites and web applications for local organizations and small businesses.
- Managed projects from requirements and interface design through development, deployment, and client handoff.
- Built reusable React and Next.js interfaces with accessible interactions, purposeful motion, and fast page loads.

Projects

HonestUI

Next.js, React, TypeScript, Tailwind CSS, Fumadocs

honestui.com — github.com/honestui/honestui

- Built and maintain an open-source, source-first React library of accessible components, application blocks, charts, and visual effects.
- Designed reusable primitives, themeable styles, documentation, and package entry points for production React applications.
- Published an npm CLI and AI skill pack so developers and coding agents can add, customize, and own individual components.

Portfolio

React, Next.js, JavaScript, CSS, GLSL, Vercel

connorlove.com — github.com/loveconnor/portfolio

- Designed and built a responsive portfolio that presents selected projects, services, and professional experience.
- Added custom motion and 3D interactions, responsive layouts, and a serverless contact form; deployed on Vercel.

Research & Honors

Choose Ohio First Scholar and Student Researcher

- Developed algorithms and an interface for keyword-based community search in spatial-social networks.
- Presented the work at a Kent State research conference in April 2025.

Kent State University, 2024 – 2025

3rd Place, Kent Hack Enough Hackathon – EduSynapse

Feb. 2025

Technical Skills

Languages: TypeScript, JavaScript, Java, C++, Python, SQL, HTML/CSS

Web: React, Next.js, Node.js, Tailwind CSS, Three.js, Supabase, PostgreSQL, REST APIs

Tools: Git, Docker, Vercel, Figma, Photoshop, Illustrator; OpenAI, Gemini, and Claude APIs
